# QUICK TURN AROUND!

We have been pushing our manufacturing team to see what they can do to turn around orders quickly.

In order to do that we first had to come up with some ground rules so our sales team and customer service knew what to promise our customers.

## RULES FOR QUICK TURNS IN SEVEN WORKING DAYS

1. Unit must already be drawn. (existing part number)
2. All components must be in L&M's stock
3. Target builds of \$15,000 or less

Like anything, there are exceptions to rules. When in doubt contact your area sales representative or customer service to see if we can meet your needs.

Here is a list of sample units that have been a part of our Quick Turn program. We have also made some parts orders for OEMs, subassemblies mostly – Komatsu, Sandvik and Joy Global.
